- Store and transport in an upright position.
- Use only in a dry place inaccessible to children and pets.
- Do not reuse empty container.
- Discard empty container in trash.

For Ornamental Flowers and Shrubs (such as Roses, Azaleas, Rhododendrons, Mums, etc.):

For Lawns:

- Locate active mole areas and runways to determine which way to push the moles out of your yard.
- Next, protect the areas that are not yet invaded by the moles.
- Then, direct the moles away from the lawn by treating the lawn in stages.

Day 1:

- Spread the granules over the areas not yet invaded by the moles.
- Lightly water in the granules for approximately 10-15 minutes on the same area as day 1.

Day 2:

- Spread the granules over the second area away from the undamaged lawn and towards the boundary of the lawn.
- Lightly water in the granules for approximately 10-15 minutes on the same area as day 1, PLUS the second area.

Day 3:

- Spread the granules over the third area away from the areas previously applied and towards the boundary of the lawn.
- Lightly water in the granules for approximately 10-15 minutes on the same areas as day 1 and 2, PLUS the third area.

Day 4:

- Spread the granules over the fourth area away from the areas previously applied and towards the boundary of the lawn.
- Lightly water in the granules for approximately 10-15 minutes on the same areas as day 1, 2, and 3, PLUS the fourth area.

First Aid and User Precautions:

- This product can cause moderate eye irritation. For certain individuals, skin irritation may occur. In case of eye contact, flush with plenty of water, seek medical attention if irritation persists. In case of skin irritation, wash area thoroughly with soap and water.

Storage and Disposal:

- This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that the ingredients qualify for exemption from registration under FIFRA.

Buyer's Guarantee Limited to Label Claims

- This product can be safely used around children and pets, when used as directed. This product is biodegradable and will not harm lawns, ornamentals, flowerbeds, or other desirable plants.

Directions for Use:

- Apply 2 lbs. of product per 1,000 sq. ft. and reapply every 2-3 months to ensure consistent repellency. This product can be applied directly from the bag or by using a broadcast or drop spreader.

- Effectively rids lawns and ornamental planting areas of Moles, Voles, Gophers, Armadillos, Ground Squirrels, and other burrowing animals.
Mole & Vole Repellent

Use on lawns, gardens and planting beds. Treats up to 5,000 sq. ft.

For Lawns: Locate active mole areas and runways to determine which way to push the moles out of your yard. Next, direct the moles away from the undamaged areas by treating the lawn in stages.

- **Day 1:** Spread the granules over the second or third area away from the undamaged lawn and towards the boundary of the lawn. Lightly water in the granules for approximately 10-15 minutes after application.

- **Day 2:** Spread the granules over the third area away from the undamaged lawn and towards the boundary of the lawn. Lightly water in the granules for approximately 10-15 minutes on the same areas as day 1. PLUS the second area to get the moles moving.

- **Day 3:** Spread the granules over the third area away from the undamaged lawn and towards the boundary of the lawn. Lightly water in the granules for approximately 10-15 minutes on the same areas as day 1 and 2. PLUS the first area.

- **Day 4:** Spread the granules over the fourth area away from the undamaged lawn and towards the boundary of the lawn. Lightly water in the granules for approximately 10-15 minutes on the same areas as day 1, 2, and 3. PLUS the first area.

**Tip:** Throughout the process, punch holes into the mole tunnels every 4-6 feet and place 2 tablespoons of the granules directly into the tunnel. Apply 2-4 tablespoons of the granules directly into the tunnel.

Precautions:

- **First-aid and User Precautions:**
  - **CAUTION:** Product can cause moderate eye irritation. For certain individuals, eye irritation may occur. In case of eye contact, flush with plenty of water, seek medical attention if irritation persists. In case of eye irritation, wash area thoroughly with soap and water, seek medical attention if irritation persists.

- **Storage and Disposal:** Store and transport in an upright position. Store only in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

- **Other precautions:** Do not apply directly to water. This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that the ingredients qualify for exemption from registration under FIFRA.

**Buyer’s Guarantee Limited to Label Claims**

For Ornamental Flowers and Shrubs (such as Roses, Azaleas, Rhododendrons, Mums, etc.) Apply 2 tablespoons to the bottom of the planting hole and 3-4 tablespoons in the soil mix before back filling.

For Bulbs: After placing bulb in hole, apply 1 tablespoon of product into the hole, making sure granules surround the bulb then backfill with soil.
