

# CARPENTER ANT CONTROL CONCENTRATE

**CONTROLS:** BEETLES (FURNITURE, DEATHWATCH, FALSE POWDERPOST, LONGHORNED, POWDERPOST), CARPENTER ANTS, CARPENTER BEES, AND TERMITES (INCLUDING DRYWOOD TERMITES)

**USE ON:** OUTSIDE OF BUILDINGS, PORCHES, WOODEN DECKS, AND PATIOS, WOODEN FENCES, WINDOW FRAMES, DOORWAYS, FOUNDATIONS, EAVES, GARAGES, GARBAGE AREAS AND OTHER AREAS WHERE YOU MAY FIND THESE PESTS.

**MIX:** 10 FL. OZ. WITH 1 GAL. WATER TO TREAT 100 SQ. FT.  
(READ AND FOLLOW LABEL INSTRUCTIONS)

**APPLY:** BY BRUSHING OR SPRAYING THE DILUTED SPRAY  
(READ AND FOLLOW LABEL DIRECTIONS)

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

Store and transport in an upright position.

EPA Est. No. 4-NY-1

EPA Reg. No. 4-408

Buyers Guarantee Limited to Label Claims.

Bonide Products, Inc.

Oriskany, NY 13424

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use a clean sprayer. Carefully measure and mix the amount of concentrate and water as directed. Spray as directed. Thorough coverage is important. Flush sprayer with clean water after each use. Make applications when insects first appear. Repeat applications as directed. See directions for complete insect list.

People and pets should not be allowed in treated areas until spray has dried.

Use dilution rates as indicated.

1 fl. oz = 6 tsp. or 2 Tbsp.

8 fl. oz = 1/2 pt. or 1 cup

## WOOD-INFESTING INSECTS

**For Beetles (Furniture, Deathwatch, False Powderpost, Longhorned, Powderpost), Carpenter Ants (and other wood-infesting ants), Carpenter Bees and termites (including drywood termites):** Treat outside of buildings, porches, wooden decks, and patios, wooden fences, window frames, doorways, foundations, eaves, garages, garbage areas and other areas where you may find these pests.

Mix 10 fl. oz with 1 gal. of water to treat 100 sq. ft. Spray infested surfaces until thoroughly wet, avoiding dripping and runoff. Apply evenly on wood surfaces. To treat small areas, apply by brushing or spraying the diluted spray. For large areas, use a coarse, low pressure spray. Repeat treatment as needed to maintain effectiveness. Do not spray into electrical outlets or utilities.

Spray infested areas and areas likely to be infested, such as wood surfaces, voids and channels in damaged wood, spaces between wooden parts of structure, and between wood and foundations where infestation is likely to occur. Also spray around fence posts, wood piles (do not use on firewood) and tree stumps.

Suitable protective clothing should be worn in confined or overhead areas to prevent exposure to eyes and skin. The use of eye protection, protective head covering, chemical resistant gloves and footwear, a long-sleeved shirt and long pants or coveralls are recommended. Do not permit contact with treated surfaces until spray has dried. Treated confined areas, such as detached garages, under porches and decks, should be ventilated during and immediately following application before the areas are re-occupied.

**For carpenter ants**, spray around doors and windows and other places where ants may enter or crawl and hide. Also treat cracks and crevices or openings into wall voids or other areas where these ants may be present.

For carpenter bees, spray or inject into holes and tunnels already made by the bees with a tank sprayer, and spray areas where they are beginning to build tunnels into the wood.

For termites\* (including drywood termites), treat as for other wood-infesting insects. This product will kill workers and winged reproductive forms of termites in the treated areas.

**\*USE OF THIS TYPE OF PRODUCT TO CONTROL TERMITES SHOULD NOT BE CONSIDERED A SUBSTITUTE FOR SOIL TREATMENT OF SUBTERRANEAN TERMITES DONE BY A PROFESSIONAL PEST CONTROL OPERATOR.**

## **FIRE ANT CONTROL**

### **Individual Mound and Plant Container Treatment**

Mix 2 fl. oz. in 3 gals. water and apply as a drench using a sprinkler can. Gently apply 1 gallon of the mixture over the surface of each mound. Thoroughly wet mound and surrounding area of 3x4 ft. (12 sq. ft.) For best results apply in cool weather 65°F-80°F, early or late in the day. Treat new mounds as they appear. Pressurized sprays may disturb ants and cause migration which will reduce product effectiveness. Use the same method as above for the control of Fire Ants that may nest in permanently placed containerized ornamentals plants.

### **STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store and transport in an upright position. Store in a cool, dry area away from heat or open flame.

**DISPOSAL:** *If empty* - Do not reuse this container. Place in trash or offer for recycling if available. *If partly filled* - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

## FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

<b>If inhaled:</b>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
<b>If on skin or clothing:</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
<b>If in eyes:</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
<b>If swallowed:</b>	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

## PRECAUTIONARY STATEMENTS

### Hazards to Humans and Domestic Animals

**CAUTION:** May be harmful if swallowed or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

### Environmental Hazards

This pesticide is extremely toxic to fish. Do not apply directly to water. Avoid contamination of ornamental fish ponds. Drifts and runoff from treated areas may be hazardous to aquatic organisms in treated areas. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.
