## FIRST AID

### IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

### IF ON SKIN OR CLOTHING

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or going for treatment.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes substantial but temporary eye injury. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

### ENVIRONMENTAL HAZARDS

This product may be hazardous to aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

## DIRECTIONS FOR USE – Non-Commercial

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### **Application Directions – Non-Commercial**

**Domestic Lawns and Ornamental Gardens:** Dilute concentrate by mixing one part concentrate with 19 parts water (6.8 oz. in 1 gallon of water). Thoroughly soak moss with solution, applying 12 to 25 gallons per 1000 square feet (500 to 1000 gallons per acre). For thick moss (greater than 1 inch thick), use up to 50 gallons per 1000 square feet.

**Follow Up On Domestic Lawns & Ornamental Gardens:** Lightly rinse treated areas with water (1 gallon per 1000 square feet) 15 to 30 minutes after treatment to avoid grass and plant damage. Test spray a small area prior to using. Do not heavily irrigate for at least 6 hours. Reapply every 2 weeks or as required. If it rains within one day of treatment, an additional application may be required. Moss will turn brown after a few days. For best results, physically remove dead moss one week after treatment. Areas can be re-sown 5 days after treatment.

**Other Sites:** Dilute concentrate by mixing one part concentrate with 9 to 19 parts water (put 6.8 to 13 fl. Oz. in 1 gallon water). Apply 8 to 12 gallons of solution per 1000 square feet. For thick moss (greater than 1 inch), use 25 gallons of solution per 1000 square feet. If moss is dry, thoroughly wet moss with water before treating. Repeat treatment annually or when new moss or algae are visible.

**Methods of Application:** Apply with any standard hand-held sprayer, backpack sprayer, tank sprayer, mop, watering can or brush. Keep sprayer moving to get an even application. In areas of hard water, use water softeners.

**PESTS: MOSS MAX Concentrate** is effective in controlling mosses, algae, lichens, and liverworts.

**Other Sites: MOSS MAX Concentrate** may be used around and on homes and other buildings, and home greenhouses. It may be used on: roofs, cedar shakes and composition shingles, cedar siding, stucco, cedar, redwood and CCA-treated wood decks and fences, brick, stone and concrete walkways, sidewalks and driveways, growing containers, other structural surfaces, hardened bark of trees, bark mulch, pavement, gravel, patios, asphalt, automobile exteriors, and the exteriors of motor homes and boats.

**WHEN TO USE: MOSS MAX Concentrate** can be used any time during the year. Best results are obtained with actively growing moss in the spring or fall. Do not use on lawns when temperature exceeds 85° F. During warmer weather apply late in the day. Application during cold weather may delay appearance of moss damage.

#### **STORAGE AND DISPOSAL**

**STORAGE:** Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material tightly closed, in original container only, away from open flame. Do not store at temperatures below 32°F.

#### **CONTAINER DISPOSAL:**

**If empty:** Do not reuse this container. Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency or 1-800-CLEAN-UP for disposal instructions. Never place unused product down any indoor or outdoor drain.
