Oriskany, NY 13424

Made in U.S.A.

Bonide Lightning Fast Grass & Weed Killer is a contact, non-selective weed killer that effectively controls almost all growing, green vegetation. Caution should be used to avoid contact with desirable plants. This product will control both annual and perennial broadleaf and grassy weeds, without damaging soil biology. May be used in areas where children and pets play.

Bonide Lightning Fast Grass & Weed Killer is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that this product and its ingredients qualify for exemption from registration under FIFRA.

HOW IT WORKS

The unique blend of biodegradable ingredients in **Bonide Lightning Fast Grass & Weed Killer** attacks and begins to breakdown the plant cell structure immediately. Results can be seen in as little as 1 hour.

Best results are obtained when application is made at least 6 hours prior to anticipated rainfall. For maximum effectiveness, reapplication is recommended after heavy or frequent rainfall.

DIRECTIONS FOR USE

How To Use: **Bonide Lightning Fast Grass & Weed Killer** may be used anytime weeds are actively growing. Adjust the nozzle to a course spray. Position sprayer tip approximately 1-2 feet away from the weed and apply enough product to cover the entire weed. Warm, sunny weather will speed up weed control. Apply only when air is calm and daytime temperature is above 60°F. Tough, hard-to-control weeds such as Bermudagrass and Nutsedge may require repeat application. Reminder: Be careful when using this product as a spot treatment in lawns, since **Bonide Lightning Fast Grass & Weed Killer** kills all green plants, including desirable lawn grasses it is applied to.

STORAGE AND DISPOSAL

Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

FIRST AID

If swallowed:	<ul style="list-style-type: none">• Call a poison control center or doctor immediately for treatment advice.• Have person sip a glass of water, if able to swallow.• Do not induce vomiting, unless told to do so by the poison control center or doctor.• Do not give anything by mouth to an unconscious person.
If in eyes:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
If inhaled:	<ul style="list-style-type: none">• Move person to fresh air.• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.• Call a poison control center or doctor for further treatment advice.
If on skin or clothing:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate gastric lavage. Have the product label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment.

PRODUCT USE PRECAUTIONS

WARNING: This product is corrosive to flesh because of its caustic alkaline nature, and it causes irreversible eye damage and skin burns. Do not breathe spray mist or get in eyes, on skin, or on clothing. Wear long-sleeved shirt, long pants, socks, closed footwear, chemical resistant gloves and safety glasses or goggles when applying. Wash thoroughly with soap and water after handling and before eating, drinking or smoking. Remove contaminated clothing and wash before reuse.

OTHER PRECAUTIONS

Do not apply directly to water.
