

SAY "HELLO" TO POPI

We wanted to give you an upclose and personal look at the type of menace planning to go crazy on your customers roses and ornamental plants this summer. Meet *Popillia Japonica*, the Japanese Beetle. And while you're getting this quick lesson in insects, POPI is incubating in Mrs. Jones's lawn getting ready to morph into the destructive force that he is.

So why wait. Stock up today on Bonide's Beetle Bagger traps and ready-to-use Japanese Beetle Killer. Right now your local Bonide distributor has some strong incentives that will make it a very attractive business decision and one Mrs Jones will thank you for. Ask your distributor or local Bonide representative for details today.
