

It survived five tornadoes, twelve droughts and three generations of grandchildren

Left unprotected, a single borer infestation could kill this tree in 30 days

A single application of ANNUAL[®] Tree & Shrub drench protects your most cherished trees and shrubs from insect attacks for an **entire year!** Simply mix in a watering can and pour at the base of the tree. *It's that simple!*

NOW is the time to apply ANNUAL Tree & Shrub drench to start protecting your plants for this growing season. Visit a retailer near you to get your protection started today.

Available at these fine retailers or for more information, visit bonide.com
