

THERE'S ONLY A FEW THINGS THAT SHOULD BE "GROWING LIKE WEEDS" AROUND YOUR HOME.

AND A WEED ISN'T ONE OF THEM.

With proven cool-weather performance down to 45 degrees, Weed Beater ULTRA quickly eliminates even tough-to-kill weeds, but won't harm lawn grass.

With this kind of early, fast, and effective weed control, you'll have more time to concentrate on that perennial garden you've been thinking about.

Give your lawn the performance and value it deserves.

EARLY SPRING WILL BE THROWING UNWANTED GRASSES AND WEEDS AT YOUR OUTDOOR PROJECTS.
