BONIDE[®]

Everything a gardener needs

Seasonal Solution

This time of year broadleaf weeds are popping up all over the place but most weed killers need warm temperatures to be effective. **WEED BEATER ULTRA** kills over 200 different types of broadleaf weeds and is effective in cooler temperatures as low as 45°. **WEED BEATER ULTRA** kills the entire weed (roots and all) and gives you visible results in just 24 hours! For even the toughest weeds, now is the time to control them with **WEED BEATER ULTRA**.

Available at ...
