

Directions for Use

1. Unscrew cap and remove any liner present.
2. Fill no more than 1/2 full with any garden dust type product.
3. Replace the cap onto the bottle, and remove the small cap at the tip of the duster nozzle.
4. Shake occasionally to fluff powder.
5. Aim duster at target and apply by squeezing in short, sharp intervals.
6. Be sure to get complete and thorough coverage of all plant parts, including stems and both the tops and undersides of foliage.
7. Apply directly to any visible insects when possible.
8. Please read and follow all pesticide product label directions prior to use.
9. Return any unused product to its original container.
